This Headline Report provides a record of the decisions made by the Code Change Committee.

1. Agenda Item 04 – Recommendation – CPM058a and CPW149a Market Performance Framework Reform (Governance)

The Code Change Committee (CCC) considered the draft recommendation report for CPM058a and CPW149a '[Market Performance Framework Reform \(Governance\)](#)'. The change proposal sought to reform the Market Performance Framework (MPF) to ensure it is simple, flexible, effective and powerful in application. This will provide customers and Trading Parties with confidence in the market at reasonable cost.

Part A is the first in a series of code changes that forms part of the MPF Reform programme and covers the governance aspects of the new framework. The proposed solution will make the governance of the new MPF more agile and responsive to changes in market behaviour.
