- b) a description (in reasonable but not excessive detail) of the enhancement, issue or defect which the Change Proposal seeks to address or, in the case of a Charging Change Proposal, the Charging Change;
- c) a description (in reasonable but not excessive detail) of how the enhancement, issue or defect impacts the delivery of the Objectives and Principles and/or the Market Arrangements Code Principles;
- d) where practicable, an indication of the impact of the Change Proposal or Charging Change Proposal on the Proposer, Non-Household Customers and wider industry;
- e) any supporting evidence demonstrating the enhancement, issue or defect which the Change Proposal or Charging Change Proposal seeks to address;
- f) where the Proposer considers (by reference to the Urgent Change Proposal Criteria and Acceptance and Prioritisation Criteria) that the Change Proposal or Charging Change Proposal should be treated as an Urgent Change Proposal, a statement of that fact, the date by which the Proposer considers that the Change Proposal or Charging Change Proposal should be implemented and a full justification of why the Proposer considers that the Change Proposal or Charging Change Proposal requires to be implemented by this date;
- g) where the Proposer considers that the Change Proposal or Charging Change Proposal is necessary to comply with or implement any Law, a statement of that fact and an indication of why the Proposer considers this to be the case.

6.3.2 The Proposer may request the assistance of the Market Operator when preparing a Change Proposal or Charging Change Proposal and the Market Operator shall provide such assistance as is appropriate in the circumstances. Assistance given by the Market Operator shall not be taken to signify any form of approval for the Change Proposal or Charging Change Proposal.

6.3.3 The Code Change Committee may also request the Market Operator to prepare a Change Proposal or Charging Change Proposal relating to a change which is deemed to be housekeeping or non-substantive for submission directly to the Authority.

6.3.4 No Change Proposal or Charging Change Proposal may purport to change or affect the rights or obligations of the Authority, including in relation to the Wholesale-Retail Code.

6.4 Initial Acceptance of a Change Proposal or a Charging Change Proposal

6.4.1 Where a Change Proposal or Charging Change Proposal is received by the Code Change Committee Secretary:

a) except in relation to an Authority Timetabled Change Proposal, an Urgent Change Proposal or a Change Proposal or Charging Change Proposal which the Proposer has stated is necessary to comply with or implement any Law (except where the Authority has considered that Change Proposal or Charging Change Proposal pursuant to b) below and decided that it is not an Applicable Law Change Proposal), the Market Operator shall assess the Change Proposal or Charging Change Proposal against the Initial Acceptance Criteria. If the Market Operator determines:

(i) that the Change Proposal or Charging Change Proposal fails to meet the Initial Acceptance Criteria, the Market Operator shall refuse to accept the submission, setting out the reasons for the failure with reference to the Initial Acceptance Criteria and offering assistance to the Proposer (as is appropriate in the circumstances) to address the failure. The Proposer may submit a revised Change Proposal or Charging Change Proposal to the Market Operator, which the Market Operator will reassess against the Initial Acceptance Criteria. The Change Proposal or Charging Change Proposal shall not be progressed further until the Initial Acceptance Criteria has been met. In the event that the Proposer does not submit a revised Change Proposal or Charging Change Proposal, the Market Operator shall publish the rationale for its decision to refuse to accept the submission on its website; or

- (ii) that the Change Proposal or Charging Change Proposal has met the Initial Acceptance Criteria, the Market Operator shall assess the evidence provided by the Proposer and, where necessary, gather further evidence. Once the Market Operator has deemed there to be sufficient evidence, the Code Change Committee Secretary will place the Change Proposal or Charging Change Proposal on the agenda of the next Code Change Committee meeting, or the following meeting, where the next is in less than five (5) Business Days. The Code Change Committee Secretary will also publish a copy of the Change Proposal or Charging Change Proposal on the Market Operator's website.
 - (iii) The Proposer may appeal to The Authority if the Market Operator does not accept the Change Proposal in accordance with section (i) above. Upon consideration of such appeal, The Authority may direct the Code Change Committee Secretary to place the Change Proposal or Charging Change Proposal on the agenda of a subsequent Code Change Committee meeting, where the Change Proposal will proceed to be considered at the stage outlined in section 6.5 below.
- b) if it is a Change Proposal or Charging Change Proposal which the Proposer has stated is necessary to comply with or implement any Law, the Code Change Committee Secretary will send the Change Proposal or Charging Change Proposal and any evidence to support it to the Authority within three (3) Business Days of receiving it. As soon as practicable following receipt of the Change Proposal or Charging Change Proposal, the Authority will decide if the Change Proposal or Charging Change Proposal is an Applicable Law Change Proposal and will provide a timetable and/or process for the Applicable Law Change Proposal to the Code Change Committee Secretary, including the date by which it should first be considered at a Code Change Committee meeting and the date by which the Code Change Committee Secretary should provide a Final Report in relation to the Applicable Law Change Proposal. The Code Change Committee Secretary shall ensure that the Applicable Law Change Proposal is placed on the agenda for one or more duly convened Code

Change Committee meetings in accordance with the Authority's timetable/process. The Code Change Committee Secretary will also send a copy of the Applicable Law Change Proposal to the Authority and publish it on the Market Operator's website. If the Authority decides that the Change Proposal or Charging Change Proposal is not an Applicable Law Change Proposal and informs the Code Change Committee Secretary of its decision, the Code Change Committee Secretary will manage the Change Proposal or Charging Change Proposal in accordance with 6.4.1(a) above. An Applicable Law Change Proposal may not be withdrawn without the consent of the Authority.

- c) if it is a Change Proposal or Charging Change Proposal which the Proposer has stated should be treated as an Urgent Change Proposal, then all of the following steps must be completed within three (3) Business Days of receipt of the Change Proposal or Charging Change Proposal:
- (i) the Code Change Committee Secretary will send the Change Proposal or Charging Change Proposal and any evidence to support it to the Code Change Committee Chair.
 - (ii) the Code Change Committee Chair shall direct the Code Change Committee Secretary to convene an Urgent Code Change Committee Meeting, unless an appropriate meeting is already scheduled to take place within the next three (3) Business Days, in which case the Change Proposal or Charging Change Proposal will be added to the agenda for that meeting, which for the avoidance of doubt, will be treated as an Urgent Code Change Committee Meeting for the purpose of that Change Proposal or Charging Change Proposal.
 - (iii) at the Urgent Code Change Committee Meeting, the Code Change Committee will decide if the Change Proposal or Charging Change Proposal is an Urgent Change Proposal (using the Urgent Change Proposal Criteria and the Acceptance and Prioritisation Criteria).
 - (iv) if the Code Change Committee decide at the Urgent Code Change Committee Meeting that the Change Proposal or Charging Change

Proposal is an Urgent Change Proposal, it will provide a timetable and/or process for the Urgent Change Proposal to the Code Change Committee Secretary, including the date by which any assessment work should be considered at a Code Change Committee meeting (or Urgent Code Change Committee Meeting) and the date by which the Code Change Committee Secretary should provide a Final Report in relation to the Urgent Change Proposal.

- (v) if the Code Change Committee decide at the Urgent Code Change Committee Meeting that the Change Proposal or Charging Change Proposal is not an Urgent Change Proposal on the basis that it does not meet the Urgent Change Proposal Criteria, regardless of whether it meets the Acceptance and Prioritisation Criteria or not, and the Proposer agrees with this decision, then the Change Proposal will proceed as per 6.4.1.

- d) If the Code Change Committee decides the Change Proposal or Charging Change Proposal should not be treated as an Urgent Change Proposal on the basis that it does not meet the Urgent Change Proposal Criteria, regardless of whether it meets the Acceptance and Prioritisation Criteria or not, and the Proposer notifies the Code Change Committee within two (2) Business Days of that decision that it disagrees with the decision, then the Code Change Committee Secretary shall have a further one (1) Business Day to send the Change Proposal or Charging Change Proposal and any evidence to support it to the Authority. If the Authority decides, having regard to the Urgent Change Proposal Criteria, that the Change Proposal or Charging Change Proposal should be treated as an Urgent Change Proposal then the Code Change Committee, based on feedback from the Authority, shall provide a timetable and/or process for the Urgent Change Proposal to the Code Change Committee Secretary. This will include the date by which any assessment work should be considered at a Code Change Committee meeting (or Urgent Code Change Committee Meeting) and the date by which the Code Change Committee Secretary should provide a Final Report in relation to the Urgent Change Proposal. If the Authority decides that the Change Proposal or Charging Change Proposal

is not an Urgent Change Proposal, then the Change Proposal or Charging Change Proposal will proceed as per 6.4.1a).

- e) If the Code Change Committee decides that the Change Proposal or Charging Change Proposal meets the Urgent Change Proposal Criteria but does not meet the Acceptance and Prioritisation Criteria, the Code Change Committee shall communicate the rationale for its decision to the Proposer with reference to the Acceptance and Prioritisation Criteria. The Proposer may resubmit the Change Proposal or Charging Change Proposal within thirty (30) days of communication of the decision from the Code Change Committee. If the Proposer submits a revised Change Proposal or Charging Change Proposal, the Code Change Committee shall convene an Urgent Code Change Committee Meeting, unless an appropriate meeting is already scheduled to take place, within the next three (3) Business Days of receipt of the revised Change Proposal or Charging Change Proposal to reevaluate it against the Acceptance and Prioritisation Criteria. Where the revised Change Proposal or Charging Change Proposal meets the Acceptance and Prioritisation Criteria, the Code Change Committee will provide a timetable and/or process for the Urgent Change Proposal to the Code Change Committee Secretary in accordance with 6.4.1c)(iv). If the revised Change Proposal or Charging Change Proposal fails to meet the Acceptance and Prioritisation Criteria for a second time, or the Proposer does not resubmit a revised Change Proposal or Charging Change Proposal, the Code Change Committee shall send the Change Proposal or Charging Change Proposal to the Authority and recommend that the Authority reject it.

6.4.2 The Market Operator shall report to the Code Change Committee each Month (save where the Code Change Committee has elected not to meet that Month) on the status and progress of the Change Proposals or Charging Change Proposals received by the Code Change Committee Secretary, including those Change Proposals or Charging Change Proposals that have failed to meet the Initial Acceptance Criteria.

6.4.3 If it is an Authority Timetabled Change Proposal, the Authority will provide a timetable and/or process to the Code Change Committee Secretary with the Authority Timetabled Change Proposal, including the date by which it should first

be considered at a Code Change Committee meeting and the date by which the Code Change Committee Secretary should provide a Final Report in relation to the Authority Timetabled Change Proposal. The Code Change Committee Secretary shall ensure that the Authority Timetabled Change Proposal is placed on the agenda for one or more duly convened meetings in accordance with the Authority's timetable. The Code Change Committee Secretary will also publish a copy of the Authority Timetabled Change Proposal to the Market Operator's website.

- 6.4.4 The Code Change Committee will consider and evaluate each Change Proposal or Charging Change Proposal and will, when it has undertaken its deliberations, recommend to the Authority (i) whether or not to approve each Change Proposal, or (ii) the most appropriate amendments in order to facilitate the Charging Change, as soon as reasonably practicable in accordance with the following provisions of this Section 6 (Change Process), having taken due account of the complexity, importance and urgency of the Change Proposal or Charging Change Proposal and (in the case of a Change Proposal only) having regard to whether or not such Change Proposal is within the Objectives and is consistent with the Principles and/or the Market Arrangements Code Principles.
- 6.4.5 If the Change Proposal or Charging Change Proposal is an Applicable Law Change Proposal or an Authority Timetabled Change Proposal, the Code Change Committee must comply with any requirements which the Authority has provided to the Code Change Committee Secretary in relation to the process to be followed and/or the timetable within which the Code Change Committee must consider the Applicable Law Change Proposal or Authority Timetabled Change Proposal and issue a Final Report.

6.5 Acceptance of a Change Proposal or Charging Change Proposal

- 6.5.1 Except in relation to an Applicable Law Change Proposal or an Authority Timetabled Change Proposal, the Code Change Committee will consider and evaluate each Change Proposal or Charging Change Proposal against the Acceptance and Prioritisation Criteria and decide whether to accept it into the change process or recommend it to the Authority for rejection.

6.5.2 Where the Code Change Committee determines that the Change Proposal or Charging Change Proposal fails to meet the Acceptance and Prioritisation Criteria:

- a) the Code Change Committee shall refuse to accept the Change Proposal or Charging Change Proposal into the change process;
- b) the Code Change Committee will communicate the rationale for its decision to the Proposer, with reference to the Acceptance and Prioritisation Criteria;
- c) The Proposer may withdraw the Change Proposal or Charging Change Proposal from the change process or submit a revised Change Proposal or Charging Change Proposal. The Proposer shall inform the Market Operator of their intention to withdraw or resubmit the Change Proposal or Charging Change Proposal within thirty (30) days of communication of the decision from the Code Change Committee. If the Proposer:
 - (i) does not inform the Market Operator of its intention to resubmit or withdraw the Change Proposal or Charging Change Proposal, the Code Change Committee shall send the Change Proposal or Charging Change Proposal to the Authority and recommend that the Authority reject it;
 - (ii) intends to submit a revised Change Proposal or Charging Change Proposal, the Proposer shall consider the rationale provided by the Code Change Committee and provide additional evidence. The Code Change Committee will provide a reasonable time period in which the revised Change Proposal or Charging Change Proposal shall be resubmitted. Where the Proposer does not submit a revised Change Proposal or Charging Change Proposal within the prescribed time period, the Code Change Committee shall send the Change Proposal or Charging Change Proposal to the Authority and recommend that the Authority reject it;
 - (iii) pursuant to 6.5.2 c)(ii) above, submits a revised Change Proposal or Charging Change Proposal within the prescribed time period provided by the Code Change Committee, the Code Change Committee shall reevaluate the revised Change Proposal or

Charging Change Proposal against the Acceptance and Prioritisation Criteria. If the revised Change Proposal or Charging Change Proposal fails to meet the Acceptance and Prioritisation Criteria for a second time, the Code Change Committee shall send the Change Proposal or Charging Change Proposal to the Authority and recommend that the Authority reject it;

- d) The Code Change Committee will publish its decision to recommend a Change Proposal or Charging Change Proposal to the Authority for rejection, with reference to the Acceptance and Prioritisation Criteria, on the Market Operator's website.

6.5.3 Where the Code Change Committee determines that the Change Proposal or Charging Change Proposal has met the Acceptance and Prioritisation Criteria, the Code Change Committee will provide a timetable and/or process for solution development, having regard to the complexity, priority relative to other ongoing Change Proposals and Charging Change Proposals and time sensitivity.

6.6 Solution Development and Impact Assessment

6.6.1 Solution development may be undertaken by the Proposer and/or the Market Operator in accordance with this Section 6.6.

6.6.2 Where the Proposer has provided a solution in the Change Proposal or Charging Change Proposal or has not provided a solution in the Change Proposal or Charging Change Proposal but wishes to stay engaged in the change process, the Proposer may work with the Market Operator to develop or refine the solution before presenting it to the Code Change Committee for consideration. The Market Operator may identify and develop an alternative solution to be submitted to the Code Change Committee for consideration alongside the Proposer's solution.

6.6.3 Where the Proposer has disengaged from the change process after submitting a Change Proposal or Charging Change Proposal, the Market Operator will develop or continue to refine the solution for the Change Proposal or Charging Change Proposal and present it to the Code Change Committee for consideration.

6.6.4 Other than for Applicable Law Change Proposals and Authority Timetabled Change Proposals, when considering and developing each Change Proposal or Charging Change Proposal the Code Change Committee must:

- a) consult in such manner as the Code Change Committee decides is appropriate in the circumstances with any such persons who may properly be considered to have an appropriate interest in the Change Proposal or Charging Change Proposal, consider the responses from interested parties (including any alternative change proposals they believe better implement the relevant Change Proposal or Charging Change Proposal) and recommend amendments to the Change Proposal or Charging Change Proposal as appropriate; and
- b) without prejudice to Section 6.6.4a), obtain the view of the Customer Representative on the Change Proposal or Charging Change Proposal, except in relation to housekeeping or non-substantive changes.

6.6.5 In addition to the requirements in Section 6.6.4, when considering and developing each Change Proposal or Charging Change Proposal the Code Change Committee or the Market Operator may (but shall not be obliged to) undertake any one or several of the following processes:

- a) co-opt or consult with experts or wider industry representation to give advice to the Code Change Committee on a Change Proposal or Charging Change Proposal;
- b) establish sub-groups to consider one or more Change Proposal(s) or Charging Change Proposal(s), which sub-groups may co-opt or consult with experts or wider industry representation to advise on the Change Proposal or Charging Change Proposal; and
- c) procure a cost benefit analysis and/or impact assessment in respect of one or more Change Proposal(s) or Charging Change Proposal(s), to identify, without limitation, potential cost implications and practical issues in adopting any Change Proposal or Charging Change Proposal and in particular any impact on the Central Systems and/or on and any interfacing systems used by Trading Parties.

6.6.6 When developing each Change Proposal or Charging Change Proposal, the Code Change Committee may reprioritise ongoing Change Proposals or Charging Change Proposals in accordance with the Acceptance and Prioritisation Criteria. If a Change Proposal or Charging Change Proposal is reprioritised, the Code Change Committee may provide a new timetable and/or process in which to progress the Change Proposal or Charging Change Proposal.

6.6.7 If at any stage of the change process it becomes apparent to the Code Change Committee that the Change Proposal or Charging Change Proposal has no reasonable prospect of being approved and implemented, the Code Change Committee may direct the Market Operator to cease development of the solution, and send the Change Proposal or Charging Change Proposal to the Authority recommending that the Authority rejects it. The Code Change Committee will also communicate the rationale for its decision to the Proposer and publish the decision on the Market Operator's website.

6.7 Recommendation and Implementation

6.7.1 Following (A) the processes undertaken in accordance with Section 6.4.56.4.5, save where a Change Proposal or Charging Change Proposal has been sent to the Authority in accordance with Section 6.6.7, the Code Change Committee shall vote on (i) whether to recommend that a Change Proposal is approved, or (ii) the most appropriate amendments in order to facilitate the Charging Change, or (B) the preparation by the Market Operator of a housekeeping or non-substantive Change Proposal which is to be submitted directly to the Authority; the Code Change Committee Secretary shall thereafter prepare a Final Report setting out:

- a) the Code Change Committee's or Market Operator's (for housekeeping or non-substantive changes) recommendation as to (i) whether the Change Proposal or an amended or alternative version of the Change Proposal should be approved or rejected by the Authority (and, for the avoidance of doubt, the Code Change Committee shall recommend that the Authority should not approve a Change Proposal unless the Code Change Committee votes in favour of recommending the approval of that Change Proposal, or the Code Change Committee have requested the Market Operator to prepare a non-substantive Change Proposal which is to be submitted directly to the Authority) or (ii) whether the Charging Change

Proposal or an amended or alternative version of the Charging Change Proposal represents the most appropriate amendments in order to facilitate the Charging Change, along with reasons for the Code Change Committee's recommendation or confirmation and rationale from the Market Operator that the Change Proposal is housekeeping or non-substantive;

- b) a summary of the views expressed by all interested parties who participated in the processes undertaken in accordance with Sections 6.6.4 and 6.6.5, or confirmation and rationale from the Market Operator that the Change Proposal is housekeeping or non-substantive;
- c) a description of the views of the Code Change Committee Members who voted in relation to the Code Change Committee's recommendation (or confirmation that the Code Change Committee have referred the housekeeping or non-substantive Change Proposal to the Market Operator for preparation and submission to the Authority, with rationale);
- d) (in respect of a Change Proposal only) an explanation of how the Change Proposal better facilitates the Objectives and Principles and/or the Market Arrangements Code Principles; and
- e) (save in relation to housekeeping or non-substantive Change Proposals which the Market Operator has been requested to prepare) in respect of each and every Charging Change Proposal and where the Code Change Committee decides to recommend to the Authority that a Change Proposal should be approved:
 - (i) the time and date on which the Code Change Committee believes the Change Proposal or Charging Change Proposal could be implemented; and
 - (ii) the draft legal text that the Code Change Committee proposes could be implemented to change the relevant part of the Wholesale-Retail Code and/or the Market Arrangements Code.

6.7.2 The Market Operator shall provide such assistance as is appropriate in the circumstances to ensure that the draft legal text included in the Final Report is

clear, unambiguous, comprehensive and uses consistent wording with a view to properly maintaining the Wholesale-Retail Code and the Market Arrangements Code as coherent and consistent documents.

- 6.7.3 The Code Change Committee Secretary will promptly provide a Final Report in respect of each Change Proposal or Charging Change Proposal to the Authority, and publish it on the Market Operator's website.
- 6.7.4 If the Authority determines that it cannot properly form an opinion on the approval of a Change Proposal or Charging Change Proposal and requests that the Code Change Committee revise and resubmit a Final Report, the Code Change Committee Secretary shall include the relevant Change Proposal or Charging Change Proposal on the agenda of the next Code Change Committee meeting. The Code Change Committee shall, as soon as reasonably practicable in the circumstances of the Authority's request, revise and arrange for the Code Change Secretary to resubmit a Final Report that responds to any issues specified in the Authority's request. Where the Change Proposal is housekeeping or non-substantive and submitted by the Market Operator, and the Authority determines that it cannot properly form an opinion on the approval of the Change Proposal and requests that the Market Operator and Code Change Committee revise and resubmit a Final Report, the Code Change Committee and the Market Operator shall work together to resubmit a Final Report that responds to any issues specified in the Authority's request.
- 6.7.5 If, having considered the Final Report (and having conducted such other analysis and consultation as the Authority considers appropriate), the Authority decides to approve the Change Proposal or Charging Change Proposal, any such change shall be an Approved Change.
- 6.7.6 Pursuant to Section 6.7.5 above, where the Authority has agreed an approved implementation date for an Approved Change, the Market Operator may make a request directly to the Authority to amend the implementation date where necessary.
- 6.7.7 The Market Operator shall implement any Approved Change, including any resultant amendments required to the Central Systems in an efficient and co-

6.8.2 Where the Market Operator has been notified by the Central Market Agency of a proposed change to the Scottish Market Code or Scottish Operational Code which may have an impact on the terms or operation of the Wholesale-Retail Code, the Market Operator shall consider such impact and will report to the Panel and the Code Change Committee on whether it believes:

- a) an identical change can be made to the Wholesale-Retail Code to facilitate delivery of a seamless market experience for Non-Household Customers in the Areas of Wholesalers and in Scotland; or
- b) an equivalent (but not identical) or different change can be made to the Wholesale-Retail Code to facilitate delivery of a seamless market experience for Non-Household Customers in the Areas of Wholesalers and in Scotland; or
- c) that no change should be made to the Wholesale-Retail Code and the reasons why.

9.5.1 Effective from the Year commencing 1 April 2027, and for each subsequent Year, a process for calculating the Key Performance Indicator Charge Inflationary Increase shall be conducted by the Market Operator for all Key Performance Indicator Charges. This shall determine the annual percentage increase for inflation for each current Key Performance Indicator Charge.

The Market Operator will also indicate in the draft Market Operator Budget the proposed treatment of any surplus of Market Operator Charges anticipated for the current Year compared to its Total Costs incurred in relation to that Year and any anticipated borrowings for the coming Year. The Market Operator shall give due consideration to any representations made by the Panel in relation to the draft Market Operator Budget. The Panel shall provide any such representations to the Market Operator within twenty (20) Business Days of receipt of the draft Market Operator Budget. Where the Market Operator anticipates a material increase in budget compared to the current Year's Market Operator Budget it will use all reasonable endeavours to provide earlier notice of the likely level of increase and reasons for such increase to the Panel. The Market Operator shall also publish a forward release plan which sets out its anticipated dates for issuing new releases of the Wholesale-Retail Code, the Market Arrangements Code and the Central Systems on its website on a rolling quarterly basis.
- 10.2.3 Subject to Section 10.2.2, the Market Operator shall finalise the Market Operator Budget and make copies available to each Undertaker Wholesale Business and Retailer Business.

- 10.2.4 If, at any time during the Year to which the Market Operator Budget relates, the Market Operator reasonably believes that the Market Operator will exceed its expected budget, the Market Operator shall consider what remedial action might be taken or whether any change to the Market Operator Budget is required. Subject to Section 10.2.2, the Market Operator may change the Market Operator Budget at any time during the relevant Year if the Market Operator reasonably believes it is necessary to do so.
- 10.2.5 If the Market Operator Budget is changed during the relevant Year under Section 10.2.4, the Market Operator shall, if necessary recalculate the Market Operator Charges for the remainder of the relevant Year.
- 10.2.6 The Market Operator will issue a profile of payments due for each Year by each Undertaker Wholesale Business and each Retailer Business at the start of each Year with the default profile being one twelfth (1/12) due per Month. Where the Market Operator considers that a substantial proportion of Market Operator Charges are likely to be incurred on a significantly uneven basis over the course of a Year:
- a) the Market Operator may adjust the profile of recovery of Market Operator Charges in accordance with Section 10.2.6b);
 - b) such profile will be recognised by applying factors other than one twelfth (1/12) in relation to all or certain Months for the calculation of Market Operator Charges; and
 - c) the Market Operator shall inform the Undertaker Wholesale Businesses and Retailer Businesses of such factors (and the month(s) to which each such factor applies) at the start of the relevant Year or as soon as they have been approved by the Market Operator thereafter.
- 10.2.7 The Parties acknowledge that the Market Operator shall fund its activities via Market Operator Charges in the normal course but that the Market Operator shall be entitled to supplement the Market Operator Charges to the extent necessary in order to fund its activities by prudent borrowing. It shall be entitled to recover the cost of any such borrowing by way of Market Operator Charges.

10.2.8 The Market Operator shall allocate the costs of capital expenditure equitably as between current and future Undertaker Wholesale Businesses and Retailer Businesses.

10.2.9 Where for any reason the Market Operator recovers a surplus of Market Operator Charges in any Year compared to its Total Costs incurred in relation to that Year, the Market Operator Board shall consider the representations made by the Panel as to the treatment of a surplus in accordance with 10.2.2. The Market Operator Board shall resolve (in its discretion), as soon as possible after the final accounts for the Year are available, whether or not to retain a small cash reserve and otherwise such surplus shall be redistributed to Undertaker Wholesale Businesses and Retailer Businesses in the same proportions as they shared the Market Operator Charges in that Year.

10.2.10 Initial budgetary process for the Market Operator

Sections 10.2.1 to 10.2.9 above are without prejudice to the initial budgetary process for the Market Operator, which the Trading Parties acknowledge and agree has been carried out in accordance with the governance processes of the Market Operator.

Where the Additional Service is requested on a one off or ad hoc basis, the Market Operator shall be entitled to

 - 1.1 each Undertaker Wholesale Business' share of the Wholesaler Market Operator Charges;
 - 1.2 each Retailer Business' share of the Retailer Market Operator Charges;
 - 1.3 in relation to each Year, the adjustment in respect of the amounts payable by each Undertaker Wholesale Business, its liability for any shortfall and its entitlement to any surplus; and
 - 1.4 in relation to each Year, the adjustment in respect of the amounts payable by each Retailer Business, its liability for any shortfall and its entitlement to any surplus.
- 2 The amount of the Wholesaler Market Operator Charges payable by each Undertaker Wholesale Business in respect of each Month shall be calculated in accordance with that Undertaker Wholesale Business' share of the total registered Supply Points in the market (the Undertaker Wholesale Business' "Supply Point Share") at the date when the Market Operator produces the invoice in respect of the relevant Month in accordance with Section 10.4 (the "applicable Date") as follows:

$$\left(\frac{A}{B}\right) \times C$$

A = the aggregate number of Supply Points Registered to the Undertaker Wholesale Business in the Supply Point Register as at the applicable Date;

B = the aggregate number of all Supply Points Registered to all Undertaker Wholesale Businesses in the Supply Point Register as at the applicable Date;

C = the Wholesaler Market Operator Charges.

2.1 In addition to the amount of the Wholesaler Market Operator Charges payable under Paragraph 2 above, where an Undertaker Wholesale Business is a Dormant Member at the date when the Market Operator produces the invoice in respect of the relevant Month in accordance with Section 10.4, then the amount of the Wholesaler Market Operator Charges payable by each such Dormant Member in respect of that Month shall be calculated solely as the fixed fee of two hundred and fifty pounds sterling (£250). This Paragraph 2.1 shall not apply to Dormant Members which are New Appointees, which shall only be liable for the fixed fee set out in Paragraph 3.4.

3 The amount of the Retailer Market Operator Charges payable by each Retailer Business in respect of each Month shall be the cumulative total of the amounts calculated in accordance with (3.1), (3.2), (3.3) and (3.4) as follows:

3.1 In respect of the fixed fee, two hundred and fifty pounds sterling (£250) payable by each Retailer Business that is "Trading" at the date when the Market Operator produces the invoice in respect of the relevant Month in accordance with Section 10.4 (the "applicable Date"). $$\left(\frac{D}{E}\right) \times \left(\frac{1}{3}\right) \times \left(\frac{F}{12} - G\right)$$

D = the aggregate number of Supply Points Registered to the Retailer Business in the Supply Point Register as at the applicable Date;

E = the aggregate number of all Supply Points Registered to all Retailer Businesses in the Supply Point Register as at the applicable Date.

F = the Retailer Market Operator Charges for the Year; and

G = the cumulative total of the fixed fees payable by all Retailer Businesses in respect of the relevant Month, as determined in accordance with 3.1 above;

3.3 In respect of the market share, an amount calculated in accordance with that Retailer Business' market share as determined based on the Primary Charges levied during the most recent full calendar Month that has passed prior to the applicable Date (the "applicable Month") as shown in the R1 Settlement Run relevant to the applicable Month as follows:

$$\left(\frac{H}{I}\right) \times \left(\frac{2}{3}\right) \times \left(\frac{F}{12} - G\right)$$

H = the Primary Charges levied on the relevant Retailer Business by all Undertaker Wholesale Businesses during the applicable Month;

I = the aggregate Primary Charges levied by all Undertaker Wholesale Businesses on all Retailer Businesses during the applicable Month;

F = as above;

G = as above.

3.4 Where a Retailer Business is a Dormant Member at the date when the Market Operator produces the invoice in respect of the relevant Month in accordance with Section 10.4 then the amount of the Retailer Market Operator Charges payable by each such Dormant Member in respect of that Month shall be calculated solely as the fixed fee of two hundred and fifty pounds sterling (£250). For the avoidance of doubt, this Paragraph 3.4 shall not apply to any Retailer Business that is "Trading" (as defined in Paragraph 3.1) at the date when the Market Operator produces the invoice.

4 Without prejudice to Section 10.8, in relation to each Year (the "applicable Year"), the Undertaker Wholesale Businesses collectively shall be liable for half of any shortfall between the Market Operator Charges recovered by the Market Operator and the Market Operator's outturn costs as shown in its audited accounts for the applicable Year (the "Annual Outturn Costs"). Any Dormant Member's fixed fee contribution shall be included for the purposes of determining

any total shortfall or surplus of Market Operator Charges, but Dormant Members shall otherwise be disregarded for the purposes of this Paragraph 4. The Market Operator shall carry out a reconciliation of each Undertaker Wholesale Business' share of the Annual Outturn Costs by:

- 4.1 allocating the aggregate Undertaker Wholesale Businesses' share of the Annual Outturn Costs to each Month such that the share of the Annual Outturn Costs for each Month are proportional to the number of days in each Month; and
- 4.2 calculating each Undertaker Wholesale Business' liability for the Annual Outturn Costs for each Month by applying the Undertaker Wholesale Business' Supply Point Share for each Month, as originally determined in accordance with Paragraph 2 of this Schedule, to the aggregate Undertaker Wholesale Businesses' share of the Annual Outturn Costs for that Month.
- 4.3 Each Undertaker Wholesale Business is liable to pay any shortfall between the sum of the Market Operator Charges paid by that Undertaker Wholesale Business for each Month of the applicable Year and the sum of its liability for the Annual Outturn Costs as determined above.
- 4.4 Subject to Section 10.10.2, each Undertaker Wholesale Business shall be entitled to reimbursement of any surplus between the sum of the Market Operator Charges paid by that Undertaker Wholesale Business and the sum of its liability for the Annual Outturn Costs as determined above.
- 5 Without prejudice to Section 10.8, in relation to each Year (the "applicable Year"), the Retailer Businesses collectively shall be liable for half of any shortfall between the Market Operator Charges recovered by the Market Operator and the Annual Outturn Costs. Any Dormant Member's fixed fee contribution shall be included for the purposes of determining any total shortfall or surplus of Market Operator Charges, but Dormant Members shall otherwise be disregarded for the purposes of this Paragraph 5. The Market Operator shall carry out a reconciliation of each Retailer Business' share of the Annual Outturn Costs by:

- 5.1 allocating the aggregate Retailer Businesses' share of the Annual Outturn Costs to each Month such that the share of the Annual Outturn Costs for each Month are proportional to the number of days in each Month; and
- 5.2 calculating each Retailer Business' liability for the Annual Outturn Costs for each Month by taking the amount paid by each Retailer Business for each Month, as originally determined in accordance with Paragraph 3 of this Schedule, as a percentage of the Retailer Businesses' Market Operator Charges for that Month and applying this percentage to the aggregate Retailer Businesses' share of the Annual Outturn Costs for that Month.
- 5.3 Each Retailer Business is liable to any shortfall between the sum of the Market Operator Charges paid by that Retailer Business for each Month of the applicable Year and the sum of its liability for the Annual Outturn Costs as determined above.
- 5.4 Subject to Section 10.10.2, each Retailer Business shall be entitled to reimbursement of any surplus between the sum of the Market Operator Charges paid by that Retailer Business and the sum of its liability for the Annual Outturn Costs as determined above.

Where the pilot is successful, any full review referred to in Paragraph 3.2 b), c) and d) above shall continue to be funded by the Undertaker Wholesale Businesses in accordance with this Schedule 16.

4 Recovering the Data Cleanse Charges

4.1 The Market Operator shall be entitled to recover the Data Cleanse Charges for any Year from the Undertaker Wholesale Businesses. 4.2.2 issue a profile of payments due for each Year by each Undertaker Wholesale Business at the start of each Year with the default profile being one twelfth (1/12) due per Month. Where the Market Operator considers that a substantial proportion of Data Cleanse Charges are likely to be incurred on a significantly uneven basis over the course of a Year:

- (a) the Market Operator may adjust the profile of recovery of Data Cleanse Charges in accordance with Paragraph 4.2.2(b);
- (b) such profile will be recognised by applying factors other than one twelfth (1/12) in relation to all or certain Months for the calculation of Data Cleanse Charges; and
- (c) the Market Operator shall inform the Undertaker Wholesale Businesses of such factors (and the month(s) to which each such factor applies) at the start of the relevant Year or as soon as they have been approved by the Market Operator thereafter.

4.3 The amount of the Data Cleanse Charges payable by each Undertaker Wholesale Business in respect of each Month shall be calculated in accordance with that Undertaker Wholesale Business' share of the total registered Supply Points in the market (the Undertaker Wholesale Business' "Supply Point Share") at the date when the Market Operator produces the invoice in respect of the

relevant Month in accordance with Paragraph 5 below (the "applicable Date") as follows:

$$\left(\frac{A}{B}\right) \times C$$

A = the aggregate number of Supply Points Registered to the Undertaker Wholesale Business in the Supply Point Register as at the applicable Date;

B = the aggregate number of all Supply Points Registered to all Undertaker Wholesale Businesses in the Supply Point Register as at the applicable Date;

C = the Wholesaler Data Cleanse Charges.

4.4 Without prejudice to Paragraph 9 below, in relation to each Year, the Undertaker Wholesale Businesses collectively shall be liable for the whole of any shortfall between the Data Cleanse Charges recovered by the Market Operator and the Market Operator's outturn costs for the Data Cleanse as shown in its audited accounts for the applicable Year (the "Annual Data Cleanse Outturn Costs"). The Market Operator shall carry out a reconciliation of each Undertaker Wholesale Business' share of the Annual Data Cleanse Outturn Costs by:

4.4.1 allocating the aggregate Undertaker Wholesale Businesses' share of the Annual Data Cleanse Outturn Costs to each Month such that the share of the Annual Data Cleanse Outturn Costs for each Month are proportional to the number of days in each Month; and

4.4.2 calculating each Undertaker Wholesale Business' liability for the Annual Data Cleanse Outturn Costs for each Month by applying the Undertaker Wholesale Business' Supply Point Share for each Month, as originally determined in accordance with Paragraph 4.3 of this Schedule, to the aggregate Undertaker Wholesale Businesses' share of the Annual Data Cleanse Outturn Costs for that Month.

4.5 Each Undertaker Wholesale Business is liable to pay any shortfall between the sum of the Data Cleanse Charges paid by that Undertaker Wholesale Business

for each Month of the applicable Year and the sum of its liability for the Annual Data Cleanse Outturn Costs as determined above.

4.6 If at any time during the Year to which the Data Cleanse Charges relates, the Market Operator reasonably believes that the Market Operator will exceed the expected costs, the Market Operator shall consider what remedial action might be taken or whether any change to the Data Cleanse Charges is required. Any changes to the Data Cleanse Charges shall be agreed by the Members in accordance with Paragraph 3.1.

4.7 If the Data Cleanse Charges are changed during the relevant Year under Paragraph 4.6, the Market Operator shall, if necessary, recalculate the Data Cleanse Charges for the remainder of the relevant Year.

4.8 Subject to Paragraph 10.10.2 below, each Undertaker Wholesale Business shall be entitled to reimbursement of any surplus between the sum of the Data Cleanse Charges paid by that Undertaker Wholesale Business and the sum of its liability for the Annual Data Cleanse Outturn Costs as determined above.

5 Invoicing

5.1 The Market Operator shall deliver invoices for each Undertaker Wholesale Business detailing:

- (a) the amount of the Undertaker Wholesale Business' share of the Data Cleanse Charges payable in respect of that Month and the basis of calculation of such amount no less than nine (9) Business Days following the start of the preceding relevant Month;
- (b) any interest payable by the Undertaker Wholesale Business under Paragraph 8 below no later than nine (9) Business Days following the end of the relevant Month; and

and references to the invoice due date in Paragraphs 8 and 9 shall be to each of the dates on which payment is due under Paragraphs 6.1(a) and 6.1(c).

7 Method of payment

- 7.1 Each Undertaker Wholesale Business shall pay all amounts due hereunder by electronic transfer to a bank account specified from time to time by the Market Operator, such payment to be made in sterling in cleared funds and in full without set off or counter claim, withholding or deduction of any kind whatsoever. All Data Cleanse Charges are exclusive of United Kingdom value added tax which shall be added to such Data Cleanse Charges, if applicable.

8 Interest

- 8.1 If any amount due to the Market Operator in terms of the Market Arrangements Code is not received on the invoice due date as set out in Paragraph 6, the Undertaker Wholesale Business required to pay such amount shall pay interest to the Market Operator on such amount at the rate which is four per cent (4%) per annum over the published base lending rate from time to time of Bank of England, such interest to be calculated from (but excluding) the date of default to the date of actual payment (whether after or before judgement), calculated on a daily basis and compounded annually. The Parties acknowledge and agree that the amounts set out in this Paragraph 8 represent a substantial remedy under the Late Payment of Commercial Debts (Interest) Act 1998.

9 Failure to pay Data Cleanse Charges

9.1 If any Undertaker Wholesale Business fails to pay in full (a “non-paying Party”), within ten (10) Business Days after the invoice due date as set out in Paragraph 6, any amount payable by it in respect of Data Cleanse Charges:

- (a) the Market Operator shall promptly notify all Undertaker Wholesale Businesses and the Panel and the Authority of such failure within two (2) Business Days of such failure; and
- (b) the Market Operator shall take reasonable steps to recover any amount payable by the non-paying party; and
- (c) in the event that payment is not made following the steps taken by the Market Operator at 9.1b) above and subject to and with effect from the time at which the Market Operator decides to treat such amount as a bad debt, such amount shall be recovered by the Market Operator from all Undertaker Wholesale Businesses (other than the non-paying Party) as a Default Data Cleanse Charge and each such Undertaker Wholesale Business will be liable to pay additional amounts by way of Market Operator Charges, determined in accordance with this Paragraph 9.

9.2 Undertaker Wholesale Businesses shall pay the whole of any Default Data Cleanse Charges.

9.3 Each Undertaker Wholesale Business’ share of any Default Data Cleanse Charges payable by Undertaker Wholesale Businesses shall be calculated in accordance with that Undertaker Wholesale Business’ market share as determined based on the Primary Charges levied during the most recent full calendar Month that has passed prior to the date the invoice for the Default Data Cleanse Charges is issued by the Market Operator (the “relevant Month”) as shown in the R1 Settlement Run applicable to the relevant Month. Each Undertaker Wholesale Business’ market share (expressed as a percentage) shall be calculated as follows:

$$\text{Undertaker Wholesale Business' market share} = \left(\frac{D}{B - C} \right) \times 100\%$$

Where:

D = the Primary Charges levied by the relevant Undertaker Wholesale Business on all Retailer Businesses during the relevant Month;

B = the aggregate Primary Charges levied by all Undertaker Wholesale Businesses during the relevant Month; and

C = the Primary Charges levied on the non-paying Party where this is an Undertaker Wholesale Business during the relevant Month.

9.4 Where an amount is unpaid in respect of Data Cleanse Charges as described in Paragraph 9.1 the Market Operator shall take reasonable steps (which will include court proceedings if appropriate) to pursue and recover the unpaid amount from the non-paying Party.

9.5 Without prejudice to the Market Operator's continuing entitlement to payment by a non-paying Party in respect of the Data Cleanse Charges, a non-paying Party shall indemnify and keep indemnified each other Undertaker Wholesale Businesses on demand in respect of all amounts paid by such other Undertaker Wholesale Businesses to the Market Operator under Paragraph 9.1b).

9.6 While any amount is outstanding from the non-paying Party in respect of Data Cleanse Charges, the Market Operator will be entitled to withhold any payments which may be due to that non-paying Party from the Market Operator.

9.7 If the Market Operator subsequently recovers any amount from the non-paying Party in respect of the unpaid Data Cleanse Charges the amount recovered will be taken into account in determining the amounts payable in subsequent Months by Undertaker Wholesale Businesses in respect of Data Cleanse Charges.

10 Market Operator Conduct

10.1 The obligations of each Undertaker Wholesale Business to pay Data Cleanse Charges provided for in this Schedule 16 shall not be prejudiced, qualified or affected in any way by any breach by the Market Operator of any provision of the Market Terms or the Market Arrangements Code, or any other act or omission of the Market Operator.

11 Reconciliation

11.1 In relation to each Year the Market Operator shall, not later than twenty five (25) Business Days after publication of its audited accounts for that Year, make a final determination and adjustment in respect of the amounts payable by each Undertaker Wholesale Business by way of Data Cleanse Charges for that Year or any amount payable by the Market Operator in respect of any surplus of Data Cleanse Charges for that Year. The adjustment in respect of the amounts payable by each Undertaker Wholesale Business, and their liability for any shortfall or entitlement to any surplus shall be calculated in accordance with this Schedule 16.

11.2 The Market Operator shall pay any sums due to Undertaker Wholesale Businesses in accordance with this Paragraph 11.2 within five (5) Business Days of the date of its final determination under Paragraph 11.1 provided that no such reimbursement shall be made:

- (a) to any Undertaker Wholesale Business where the sum in question is less than £10,000, in which case such sum shall be deducted from the next invoice for Data Cleanse Charges submitted to the relevant Undertaker Wholesale Business under Paragraph 5.

The exception under Paragraph 11.2a) shall not apply where there are no further Data Cleanse Charges due to be paid by the Undertaker Wholesaler Businesses.

11.4 The Market Operator shall invoice any amounts determined to be payable by Undertaker Wholesale Businesses in the relevant Year under this Paragraph 11 and such amounts shall be payable in accordance with Paragraph 6.16.1(c).

11.5 Subject only to Paragraph 11.6, the Market Operator's determination of Data Cleanse Charges for any Year shall be final and binding and no further adjustment shall be made.

11.6 If, after the final determination under Paragraph 11.1 the Market Operator determines that there are exceptional circumstances which justify an adjustment in respect of an extraordinary error in the determination of, or in data used in the

determination of Data Cleanse Charges for any Year, the Market Operator may in its discretion direct, and Undertaker Wholesale Businesses shall be bound by, and the Market Operator shall give effect to, such adjustments in respect of Data Cleanse Charges (payable by and to Undertaker Wholesale Businesses) in that Year as appears to the Market Operator to be appropriate.

12 Charging disputes

An Undertaker Wholesale Business shall only be entitled to dispute any amount shown in any relevant invoice provided it has notified the Market Operator of such dispute within three (3) Months of the date on which such relevant invoice was issued.

12.1.1 Where an Undertaker Wholesale Business notifies the Market Operator of any dispute or query as to the amount shown in any relevant invoice, the Market Operator shall in a timely fashion (but not necessarily before the due date for payment) investigate the matter and inform the Undertaker Wholesale Business of the outcome of its investigation.

12.1.2 Where (pursuant to Paragraph 12.1.1 or otherwise) the Market Operator establishes that any error has been made in the determination of the amounts payable by any Undertaker Wholesale Business in respect of any relevant invoice (whether such error resulted in over-payments or in under-payment by any such Undertaker Wholesale Business), the Market Operator will make such adjustments, in respect of the subsequent relevant invoice (following such establishment or determination) payable in accordance with this Schedule 16 by or to such Undertaker Wholesale Business, as will ensure that the correct amounts have been so paid.

12.1.3 No amount in respect of interest shall be included in any adjustment under Paragraph 12.1.2.

12.1.4 Nothing in this Schedule 16 shall be construed as preventing the Market Operator from withdrawing and replacing (with the same due date for payment) any relevant invoice, before the due date for payment, by agreement with the

Undertaker Wholesale Business concerned, where the Market Operator is aware of an error in such invoice or statement.
